PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building and deploying full-stack web applications using Next.js, React, TypeScript, Node.js, PostgreSQL, and Prisma. Experienced in developing role-based platforms, REST APIs, authentication systems, database-driven workflows, and production-ready web applications. Strong foundation in Data Structures & Algorithms and core computer science.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, C++

Frontend: Next.js, React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Next.js API Routes, [Express.js](#), REST APIs, GraphQL, Socket.IO, Prisma, Zod

Database/ORM: PostgreSQL, MongoDB, Neon

Authentication & APIs: NextAuth, JWT

Tools & Platforms: Git, GitHub, Postman, Vercel, Railway

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Web Developer Intern | Graphic Industries | May 2026 – July 2026

Next.js · Tailwind CSS · Framer Motion · Swiper · Web3Forms · Vercel

- Developed and deployed the company's official website independently using Next.js and Tailwind CSS, covering Home, About, Products, and Contact pages.
- Built responsive interfaces for mobile, tablet, and desktop, including reusable navigation and footer components and product sections showcasing 6–7 products.
- Integrated Framer Motion animations and Swiper sliders to create interactive user interfaces and implemented a contact form using Web3Forms.
- Deployed the production website on Vercel and collaborated with company shareholders throughout development.

PROJECTS

FastJoin — Campus Placement & Internship Management Platform | <https://fastjoin.vercel.app/> |

Next.js · TypeScript · Tailwind CSS · REST APIs · PostgreSQL · Prisma · NextAuth · Vercel

- Built a full-stack platform with dedicated **Student, Recruiter, and Admin role-based workflows** for campus placements and internships.
- Implemented student workflows for job discovery, saved jobs, application tracking, resume management, and dashboard statistics; built recruiter workflows for job posting and application management.
- Developed an admin dashboard for monitoring **students, recruiters, jobs, applications, and resumes**, backed by approximately **20+ API route** files.
- Designed the relational data layer with **5 Prisma models and 5 enums**; implemented NextAuth authentication, **Vercel Blob resume storage**, and Vercel deployment.

Horizon — Women's Health & Wellness Platform | <https://herizon-one.vercel.app/> |

Next.js · Tailwind CSS · REST APIs · PostgreSQL · Prisma · NextAuth · Gemini · Vercel

- Built and deployed a full-stack women's health platform with dedicated **User, Partner, and Admin role-based workflows**, personalized dashboards, health profiles, and controlled partner access.
- Developed a **period tracking system** for cycle history, next-period prediction, ovulation, fertile-window estimation, and current cycle-phase tracking using date-based calculations.
- Implemented a **database-driven rule-based symptom checker** supporting multiple symptom combinations, severity-based recommendations, and Admin-modifiable symptom rules without changing application code.
- Integrated **Google Gemini API** as a conversational health assistant for general women's health, nutrition, fitness, and wellness guidance, with user-specific chat history and privacy-focused access controls.

ACHIEVEMENTS

- TCS CodeVita — Secured Global Rank 4842.
- Solved 270+ problems on LeetCode and 320+ DSA problems across coding platforms.

EDUCATION

Bachelor of Technology in Computer Science & Engineering | G H Raisoni College of Engineering and Management

2023 – 2027 | CGPA: 7.77
